Assignment 6

a. Run the sample Shiny programs in Teams folder
    i.   Can you change to your personal font?
    ii. Hint: Append the following to the ui part of the program

```
tags$style(HTML("
        body {
          background-color: white;
          color: black;
        }
        h1 {
          font-family: 'Palatino', sans-serif;
        }
        .shiny-input-container {
          color: #000000;
        }"))
```

b. Build a Shiny app using the following datasets (in datasets library):
    i.   mtcars
    ii.   USArrests
    iii. uspop
c. Publish the App to https://www.shinyapps.io account
d. Build a Shiny app loaded with your own data sets
e. Insert an iframe to your GitHub website/page to showcase your data and charts

    Example:

```
<iframe width="800" height="600"
src="https://karlho.shinyapps.io/AnimationShiny/?_ga=
2.2022769.1730630911.1603142774-249013827.1603142774"
frameborder="0" allowfullscreen></iframe>
```
